## Skidmore in the Seventies

### Views of Academic Programs, Campus Life

by William Walker

Higher education in the future, most experts agree, will become less the exclusive province of the young, and more of an adult pursuit.

In one way, that future has arrived at Skidmore, in the form of an unusual program for special friends of the college who may have advanced slightly beyond the traditional college age, but who are in a very real way temporary Skidmore students.

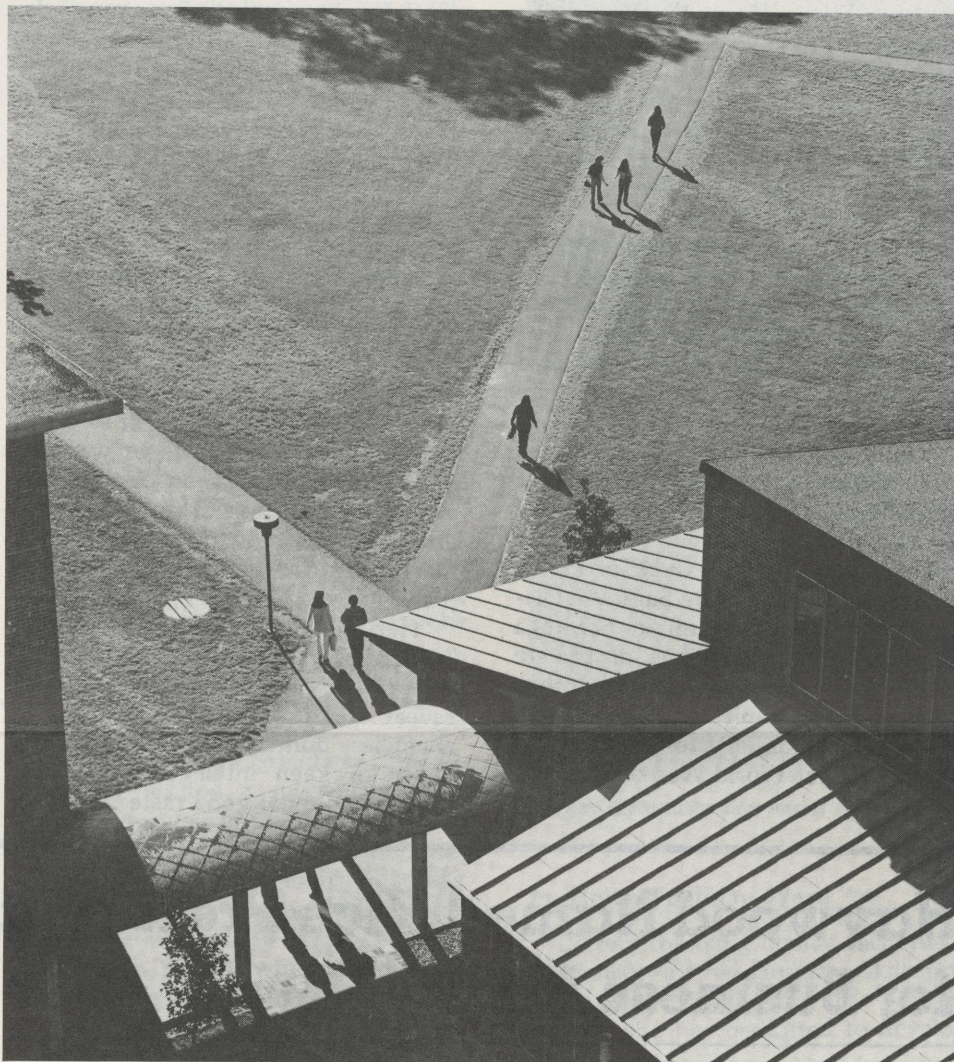

They are the parents, alumni, other friends with a special interest in Skidmore who are invited to the college for a three-day program known as "Skidmore in the Seventies."

The objective of the program is to send its "alumni" home with a renewed vitality that comes with exposure to the college environment — to reacquaint them with the same benefits their younger counterparts receive from a liberal arts education, and to stimulate their minds in a way daily life seldom does.

Participants come from all over the country, and from a long list of occupational groups. Their one common reaction when the program is over is enthusiasm for what they have experienced. "Stimulating exchange of attitudes and values" . . . "exhilarating and exciting" . . . "a real education for us" . . . "warm and generous hospitality" . . . all are phrases participants use in describing the program.

All this is accomplished through a series of seminars, intellectual exchanges with Skidmore faculty members and students, and informal social events, at which some of the most inspiring discussions are known to take place.

The only guidelines given in advance are to come with an open mind and a comfortable pair of walking shoes, since both the physical exercise of campus tours and the mental gymnastics in the classrooms are part of the attraction to the program.

The initial gathering takes place on Thursday evening at a welcoming reception. The formal sessions with students and faculty, as well as tours and social events, make Friday a long but interesting day, capped by the President's Dinner that evening. Saturday morning brings an early wrap-up session at which guests exchange reactions before heading home or off to enjoy the weekend at the resort attractions of the Saratoga Springs area.

Since its inception in September 1973, the program has grown significantly, in its frequency (from two to four times per year), the number of guests participating, and in its increasing emphasis on interaction with faculty and students involved in the daily process of the liberal arts education. Those Skidmore people, participants have found, can give new insights through their knowledge and perspectives on life.

## War: Illusion and Reality

"War: Illusion and Reality" is the title of a new and innovative general education course introduced in spring term. Multidisciplinary in its approach, the course examines the idea of war.

Organized and taught by Professors Patricia Lee of the history department, Mary Ellen Fischer of the government department and English Professor Susan Kress, the course features lectures by six faculty members from diverse disciplines and specialists on war from Washington, D.C. and from the United States Military Academy at West Point.

Not only is the program concept innovative, but the course itself is unusual in content and design. The idea of war is examined through a study that includes the humanities, sciences and social sciences.

The comprehensive overview is perhaps best illustrated by weekly topics which bear such titles as "Heroes and Warriors," "War and Human Development," "Illusion and Reality," "Command Decisions," and "War and the individual."

Classic war films are being shown each week, supplementing the major readings from Fussell's *The Great War and Modern Memory* and Keegan's *The Face of Battle*. Students keep journals and notebooks.

Under "Heroes and Warriors," for example, students are concentrating on "Myths and Methods," reading Shakespeare's "Henry V" and seeing the film "Henry V."

The topic "Illusion and Reality" includes reading and discussion of Crane's *The Red Badge of Courage* and a lecture by Skidmore Prof. Laurence Josephs on "English Poets and World War II" and a film, "The Grand Illusion," followed by a discussion led by Prof. Alan Brody of Skidmore's Theatre Department.

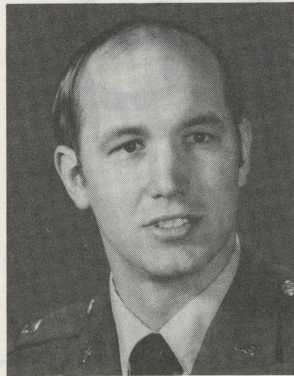

Biology Prof. Donald Pyle is a guest lecturer for "War and Human Development," as is Prof. John Reed of the department of education. Chemistry Prof. Paul Walter is lecturing on "Science, Swords and Ploughshares," and Geology Prof. Kenneth Johnson on "Aerial Photography." "War as Necessity" is the subject of government Prof. Erwin L. Levine's lecture under "War and Society."

### Experts Discuss Technical Aspects Air Power

Three distinguished guest lecturers will participate in the course. On April 10 when the class begins its study of "Air Power: A Case Study," Mr. Walter Boyne, Acting Executive Officer and the Curator of Aeronautics at the National Air and Space Museum will lecture on "Technology and the Air War, 1914-18." Mr. Boyne retired as a Colonel in the U.S. Air Force in 1974, after serving for 23 years. A Command Pilot, he has over 5,000 flying hours in more than a score of different aircraft.

Currently Associate Editor, *Wings and Airpower* magazine, he has published over 160 articles on aviation subjects. At the Museum he is supervising the assembly and installation of all of the artifacts.

### Vietnam

Under the study of command decisions, Captain Stephen D. Wesbrook of the department of history at the U.S. Military Academy will lecture on "Military Disintegration and the U.S. Experience in Vietnam."

A graduate of the Academy with a Ph.D. from Ohio State University, Captain Wesbrook speaks from firsthand experience. He was Rifle Platoon Leader, 101st Airborne Division, Republic of Vietnam in 1971-72 and later Company Commander, 1st Infantry Division at Fort Riley.

His awards and decorations include the Combat Infantryman's Badge, the Bronze Star, Air Medal and the Meritorious Service Medal.

### Civil-Military Relations

Addressing the important aspect of civil-military relations, Major General John W. Huston, Chief, Office of Air Force History in Washington, D.C. will come to campus. General Huston will lecture on "The Wartime Leadership of General H.H. Arnold."

General Huston's distinguished career includes both military service and teaching. At 17 he enlisted in the Army Air Corps and was graduated from flight training with a commission as a second lieutenant in 1944. With the 379th Bombardment Group in the European theater, he flew 30 combat missions in B-17 aircraft. After his return to the United States, he instructed navigation until he was relieved from active duty in December 1945.

In 1948 General Hudson received his bachelor of arts degree from Monmouth College, Illinois and his master

of arts and doctor of philosophy degrees in history from the University of Pittsburgh in 1950 and 1957, respectively. Following that he was visiting professor at the University of Pittsburgh, the University of Maryland and Ball State. He served on the faculty of the U.S. Naval Academy for 20 years (1956-1976), the last five as chairman of the department of history. While teaching he was active in the Air Force Reserve program as squadron navigator, operations and training officer and intelligence officer. Recalled to active duty on July 12, 1976, he became the Chief of the Office of Air Force History.

Exhibition materials to supplement the course are being provided by area museums. The Brookside Museum of Ballston Spa has an exhibit of World War I memorabilia. The Saratoga Historical Society Museum in Saratoga Springs offers collections of private individuals, including, among other items, a photograph and an autograph of General George Patton, both dating from his First World War service.

## Gail Dudack of Wall Street Week "Keen intelligence, brilliant insight"

by Eleanore Galant

To viewers of educational TV's Wall Street Week, Gail Dudack '70 is well known. An audience of some 8 million regularly hear her analyze price and volume on the stock market and exchange marketing opinions with fellow specialists.

A resident technical analyst for Pershing and Co., she first appeared as a special guest on the program in July, 1975 and has remained on ever since. The only nationwide program of its kind, live and unedited, the "Wall Street Week" has eleven panelists and uses three per week. Gail Dudack is one of these.

In first introducing her to the program, irrepressible host Louis Rukeyser appraised her as "an unusual elf, one of whom the image of technical analyst as a gnome with test tubes" cannot be pegged.

"Even before graduating from Skidmore College with honors in economics," he added, "she had begun working in Wall Street and soon became fascinated with the world of technical analysis. She is now the widely quoted market lecturer for Pershing and Company."

"Her market letters," he noted, "which bear the misleadingly bland title of *Technical Market Comment*, also reveal a full-fledged addiction to shameless punning . . . the surest evidence of keen intelligence, brilliant insight and quiet good taste."

Gail Dudack '70

Ms. Dudack was on campus recently to attend a Skidmore in the Seventies program and explained something of what her job as a resident technical analyst for Pershing and Company (now a division of Donaldson, Lufkin and Jenrette) entails.

For the firm, representing over 100 regional brokerage houses from coast to coast and in Canada and Europe, she puts out the market letter *Technical Market Comment* with market strategy for a one to six month's period. (The letter, incidentally, is widely quoted in the *New York Times*, *Barrons* and the *Los Angeles Times* among others). She is responsible for *Facts and Forecasts*, a bi-monthly publication directed primarily to the option trader list of 225 stocks. She also tours correspondent offices giving presentations on market analysis and outlook.

## Haywood Named Vice President for Business Affairs

William T. Haywood

William T. Haywood of Macon, Ga. has been appointed vice president for business affairs and treasurer of Skidmore College, it has been announced by President Palamountain.

Haywood, currently vice president for business and finance at Mercer University in Macon, Ga., will succeed James E. McCabe, who will retire on June 30 after eight years as Skidmore's chief fiscal officer.

Palamountain said Haywood's appointment, made after an extensive national search, represents a "signifi-

cant step" in the financial progress of the college.

"We owe a great debt of gratitude to Jim McCabe for the sound financial management that has characterized his Skidmore career," Palamountain said. "We are indeed fortunate to have attracted someone with such an impressive management record who will be able to build on that solid base toward an increasingly secure future."

Haywood, a veteran of more than 25 years in higher education financial management, who has held his Mercer post since 1960, will be responsible for management of all business affairs at Skidmore, including budgets, investments, facilities, construction, purchasing, personnel, and auxiliary services. He will work closely with the president, the vice president for external affairs and the provost in college policy planning.

A native of Columbia, Tenn., Haywood attended Millsaps College and Bowling Green Business University (now the Western Kentucky University College of Commerce) and earned a bachelor of business administration degree in accounting and economics

in 1951 from the University of Mississippi. He was awarded an honorary doctor of laws degree by the Atlanta Law School in 1969.

Active in professional organizations, Haywood has served as president, vice president and a director of the National Association of College and University Business Officers, the country's top organization for higher education business professionals. He has also played an active leadership role in the Southern Association of Colleges and Schools, the Southern Association of College and University Business Officers, and the National Association of Educational Buyers.

His career has also included service on a number of Federal education and financial aid panels. In 1977, he was appointed by the Secretary of Health, Education and Welfare to the U.S. Office of Education National Advisory Council on Financial Aid to Students, and by the U.S. Commissioner of Education to the Committee on the Process of Determining Student Loan Special Allowances.

Haywood is the author of more than a dozen articles in professional journals. One, on the subject of financial aid costs, was reprinted in the hearings and proceedings of two Senate subcommittees. He is currently writing chapters on philosophy and financial impact for a manual on student financial aid administration.

"Technical analysis is really a study of the internal mechanism of the stock market," she said, and explained her work as a technical commentator by contrasting the roles of the fundamentalist and the technician.

The fundamentalist specializes in an industry, analyzes company balance sheets, sales records, and management, makes forecasts for their projected earnings per share and gives an opinion on whether a company is a good or poor investment.

The technician looks at the way stock trade in the market place. Ms. Dudack looks at the market based on the laws of physics—the demand and the supply force — reflected in activity. She looks, too, at market sentiment or psychology — how people view the company. The stock market is based on crowd psychology so the technician's input is important, she said. Technicians attempt to assess crowd psychology. She cited, for example, the interest now in gambling stocks. So she sees herself as part physicist, part psychologist.

Her record and her expertise have resulted in her demand by government and business. A key U.S. government appointment is with the Department of Labor's Business Research Advisory Council where she is business advisor to a working group of business professionals who serve on the Consumer and Wholesale Price Index Committee. Other appointments include that of arbitrator for the National Association

of Security Dealers (policy body of the Security and Exchanges Commission). She is on the board of directors of the Market Technicians Association, a member of Financial Women's Association and president of the DLJ Credit Union.

To our question of how did it all begin, she said her introduction to technical analysis came in Dr. James Youtsler's economics class (Dr. Youtsler recently retired as chairman of Skidmore's Department of Economics). While only a part of the class was spent on technical analysis, it made an impression on her. Academics at Skidmore, she said, provided a constant challenge, and she spoke of her excellent experience in her major field of economics, paying tribute to Dr. Youtsler and Dr. Kie Bok Lee, both of whom played a role in her developing interests.

While at Skidmore she won the *Wall Street Journal* award for the "student who shows the most promise in the field of finance" and she worked summers of her junior year and after graduation in Pershing's research department, joining the firm in 1970.

Gail Dudack sees technical analysis as a high pressured but exciting field, changing daily with new experiences on the stock market. Asked about the market today, she said:

"The 950 level of the Dow Jones industrial average will be a hurdle in the short run but the stock market has potential for new all time highs in the next few years."

## Nancy Richardson Stevenson's Natural Way to Reading

Nancy Richardson Stevenson '38

by Helen Edelman Ward '74

Letters thanking Nancy Richardson Stevenson for her language skills program are constant rewards for the energy she has dedicated to developing it.

The 1938 graduate of Skidmore majored in art and design and concentrated her other studies in psychology, political science and economics.

"I fell into the field of education because my children were involved in learning," she says.

Although not specifically preparing for a career as an educator, the Massachusetts native and resident feels that the variety of courses she studied at Skidmore gave her the right base to develop educational programs: "I apply all of it to my program," she says. "At a teacher's college I would have gotten just training. At Skidmore I also developed insights into thinking. I am grateful for the outstanding professors I studied with and for the work, which stimulated me to think in broad ways. Skidmore was really a turning point in my life."

The language program, which Mrs. Stevenson calls "unprecedented in concept," is based on learning by association. Working with neurologists at Harvard Medical College, Mrs. Stevenson simplified many complex processes, including those used to teach reading, spelling and writing.

Originally developed for learning disabled students and illiterate adults, the program is now being insituted in the regular curriculum in some elementary schools.

John Reed, chairman of Skidmore's education department, explains that the course "evolved to help students upon whom others have given up." He calls Mrs. Stevenson "a pioneer in developing these pragmatic and effective processes" which teach by simple components, mnemonic devices and association.

## Books

### Fiddlers in Fiction

By Murray J. Levith

Paganianiana Publications Inc.,  
219 pages

Murray Levith's *Fiddlers in Fiction* is a delightful anthology with a broad narrative range and a wide spectrum of styles. It moves from the relatively straight-forward allegories such as Anton Chekhov's "Rothschild's Fiddle" and Thomas Bailey Aldrich's "The Little Violinist" to the ambitious and richly complex novellas "Albert" by Leo Tolstoy and "The Poor Fiddler" by Franz Grillparzer.

Compiling the anthology was obviously a pleasure for Dr. Levith, associate professor of English and a Shakespeare scholar.

He dedicates the book to "my mother who chased me around the dining-room table to get me to practice." This is a modest statement from one who was an accomplished violinist and something of a child prodigy.

Beginning fiddle study at not quite seven years of age in Pittsburgh, Pa., by the time he was eight he was featured on the radio program "Stars of Tomorrow" and shortly thereafter on T.V.'s "Happy's Party."

Concertmaster and soloist with the All-City-of-Pittsburgh's elementary, junior high and high school orchestras, he performed at thirteen with the Pittsburgh Junior Symphony, under

conductor William Steinberg. His appearance elicited a special comment from the music critic of the *Pittsburgh Post-Gazette*: Murray Levith [was] almost as small as his violin [and] never missed a note. During high school years, he was also a member of the Pittsburgh Youth Symphony, directed by the late Karl Kritz and managed by Marie Maazel, Loren Maazel's mother. At age fourteen, he won the Pittsburgh Concert Society auditions and was presented in a debut recital.

About a year later, after winning first prize on a T.V. amateur show, a number of theatrical booking agents persuaded him to turn "professional" and at age fifteen, he was the youngest "solo act" then belonging to the American Federation of Musicians. With night club fiddle performances, he helped finance his college education.

While in graduate school at the University of Nebraska, Murray Levith played first violin in the Lincoln Symphony and after coming to Skidmore played in the first section of the Albany, N.Y. Symphony, and conducted the Skidmore College Chamber Orchestra.

Now violinist in a piano trio with two of his Skidmore colleagues, he teaches violin in Saratoga Springs. One of his violin students is Professor Barry Targan whose prize winning "The Mendelssohn Violin Concerto" is included in this collection.

Professor Levith was a recent guest of the Pittsburgh Youth Symphony helping to celebrate its 25th anniversary.

# Painting and Drawing in Southern France

by Anita Hussey '80

About seven hours after the Skidmore College group was paged at the TWA information center at JFK, 15 students and two professors stepped into the space-like escalators in the Charles de Gaulle airport, Paris. A special January term course entitled "Painting and Drawing in Southern France" was offered this year, headed by Anthony Nazzaro, professor of French and art professor David Miller of the Skidmore faculty. Two or three pieces of work by each participant in the course are currently being exhibited in Case Center during March.

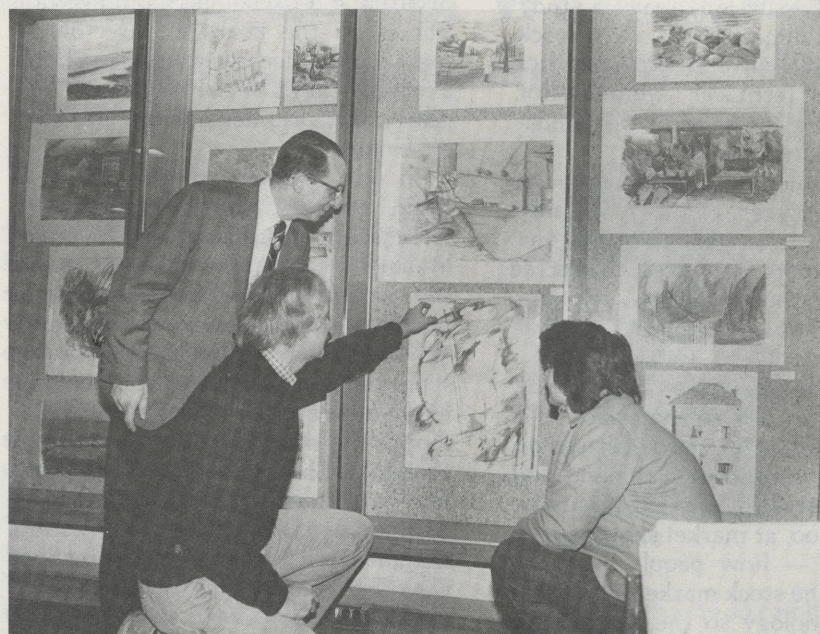

The historical and cultural allure of one of the great cities in Europe was too strong for the group to resist before traveling south. Although Paris in January is rather cold and rainy, the sights, particularly the museums, kept everyone running around for three days and left some frustrated that there wasn't more time. In addition to the Louvre, the Jeu de Paume, L'Orangerie and some of the better known museums in Paris, the Skidmore students sought out small galleries and the controversial national Centre Pompidou. Commonly referred to as the Beaubourg, the cultural center of France is an architectural innovation (brightly colored pipes and tubing, usually concealed in the interior, function as the exterior), houses the national modern art collection and boasts a higher attendance than any other museum or monument in the country.

Avignon was the first stop in Southern France — a six hour train ride from Paris. For a full week the students explored the historical area and began to concentrate on their drawing and watercolor. The architecture and aesthetic elements in the town provided

ample subject matter, everything from the infamous Pont d'Avignon, the Palace of the Popes and the ruins of a small settlement across the river, Villeneuve Les Avignon was recorded in a sketchbook, a watercolor block or on film. It was still very cold and windy and much of the work had to be finished inside a warm cafe or the hotel lobby.

Because the course was not purely studio oriented, a major part of the experience of the term revolved around meeting local people and becoming assimilated with French culture. Having arrived in Avignon at 6:00 on Sunday morning, we met the townspeople setting up for the weekly flea market — they stayed warm by the small bonfires burning next to their stalls. To save money on lunch we frequented the same boulangeries and patisseries, filling our bags with cheese, bread and wine and getting acquainted with the merchants through, for the most part, broken French.

The second destination in Southern France was a four day stay in Marseille, a large city with a much different atmosphere than Paris or a small town like Avignon. A port city, Marseille is a heavily populated industrial area. Most of our time was spent at the Vieux Port. Fishing rigs, nets, colorful hulls, and broken masts provided an endless source of inspiration for drawing and painting. A day excursion from the city exhibited many of the most interesting sights on the trip. Included was Aigues-Mortes, a walled-in city that is tiny in size but not in history; Arles, famous for its coliseum and numerous other Roman ruins; La Camarque, an island that consists of plains inhabited by wild horses and bulls and Les Baux.

Participants in Winter Term's "Painting in France" view the results. L. - R. Profs. Anthony Nazzaro, David Miller and Anita Hussey '80.

Set into the rocks of a spectacular mountain range, Les Baux is a small ville that happens to be a part of the most awe-inspiring scenery in France. Below the village, at the base of the rock formations, are quaint farms with olive groves that seem that much more impressive after having been in the flat plains.

Nice was the last, and the warmest, spot on the trip. All the elegance and beauty of the Cote d'Azur was just as evident in January as it must be in the summer. Because it is big, there is a great deal of variety in what one can do and see. The long beach on the Promenade des Anglais is famous and was a favorite place to paint and to have lunch, but the winding alleys of the old town and the port's boats were just as rich in things to sketch. Every morning there is a huge flower market in the old town that consists of rich colors, ripe fruit and a taste of culture. It was almost as obvious in Nice as it had been in Paris, the sense that aesthetics play a crucial role in every aspect

of French life. There is emphasis on art and architecture just as there is on how food is served or how it is displayed in the market.

Nearby, there were towns of particular interest to art students. Two museums were devoted solely to Chagall and Matisse as well as St. Paul's Foundation Maeght, a modern art museum with a great deal of work by Miro, Giacometti, Calder and Tapes. St. Paul itself is an artist colony with many galleries nestled in side streets and a famous hotel and restaurant that has a permanent collection of the work of modern masters valued at about 40 million dollars. The town is beautiful in its own right and is surrounded by landscape that was the subject for many of the group's drawings and paintings.

After seven days in Nice, an eight hour train ride back to Paris and the flight home, the trip ended; the students and two professors were enriched not only in the sources for their artwork but also in having experienced French life for a month.

Continued from page 3

"I feel that we fragment learning in education — but language skills should be taught all at once, including spelling, reading and writing," Mrs. Stevenson says. She has broken writing down into three basic strokes for all letters.

The program is set up to appeal to children by making a kind of game out of learning. Letter sounds are associated with pictures, (a "t" might turn into a necktie; an "e" is an ear; a "p" is represented in the bowl and part of the stem of a pipe) which children can readily remember when learning sounds.

Words are broken down into "peanut butter and jelly" or "layer cake" categories, depending on phonetic construction. This method sorts out words with silent letters, like "bread," from words with two syllables like "into." "Breed" is a peanut butter and jelly word — the "br" and the "d"

are the bread and the vowels in the middle are the spread. Layer cake words have sounds that build on each other.

The testimonial letters forwarded to Mrs. Stevenson through Little Brown and Company, which published her book, "The Natural Way to Reading," in 1974, confirm again and again that her method of teaching reading works for children and adults who have had trouble learning to read. From the aunt of a 25 year old man who had grown from an illiterate to a happy reader in one summer, to a fifth grade teacher, to the parents of a second grader who had been in a remedial class — the message is always the same: the result is success.

The program has now become a family business. With the help of her son Bill, Mrs. Stevenson has started her own publishing company at 85 Up-land Road in Attleboro, Mass., also her

home address, to produce texts and workbooks for teachers, parents and students.

"I am so grateful to Skidmore for the start I got there," Mrs. Stevenson says. "I hope someday my publishing company will benefit the college."

Recently, Mrs. Stevenson returned to the college to present her program to John Reed's education seminar. The delight was mutual. Students were impressed with her ideas and she was impressed with the new campus, the modern facilities and the receptivity of students.

"I was frankly apprehensive about coming back," she says. "When I left the old campus in 1938 it was with an impression of friendliness. But I must say despite new buildings, new students, new faces, it's the same Skidmore. The feeling of commitment and community are still there."

# Skidmore's First Intercollegiate Winter Carnival

To its traditional Oktoberfest and Spring Fling, Skidmore recently added its first intercollegiate winter carnival. Ski Club president Michael Haskell '79 and Missy Godfrey '80 spearheaded the organization for the gala four-day event, held on campus in February's sub-zero temperatures. Classes, clubs, dorms and associations on campus were all involved in the 40 events scheduled for the long weekend.

Seniors sold hot dogs outside Case Center, the juniors ran a pub in the Spa, the sophomores served cider and rum, while the freshmen served free beer as their contribution.

Highlights of the event included a torch parade, sky diving, skiing, racing, balloon launching, a Friday night costume party, a Saturday night concert

and a splendid climax of spectacular fireworks on Sunday night.

## Fee Increase Approved

At its winter board meeting the Skidmore Board of Trustees approved a 7.87 percent increase in tuition and fees — the smallest annual percentage increase in three years. Tuition for the 1979-80 year will be \$5,030 or \$370 more than current-year tuition and room and board fees \$2,370, an increase of \$170. Variations include rentals in Scribner Village, which will be \$1,525, and the overall fee for tuition and housing in the New York City nursing department set at \$6,250.

Announcing the increase, President Palamontain noted that primary considerations were given to rising costs due to inflation and President Carter's wage-price guidelines.

"The trustees voted a fee structure for next year within those guidelines, and somewhat lower than that indicated by our best estimates of next year's costs," he said.

He pointed out that Skidmore's cost-cutting program over the past decade has been a moderation of costs to students and their parents.

"During the decade our student fees have dropped from third highest in the nation to about 50th highest, while the quality of our educational programs has been enhanced strikingly," he added.

In announcing the new fees, Palamontain noted that the largest segment of Skidmore's expenditures is used for faculty and staff salaries, and that those groups "confront the same inflation" as those who pay the fees and added that in the past decade they, like faculty and staff in other colleges and universities, have lost ground to other segments of the economy.

He thanked the parents for their support of the Parents' Fund and the Skidmore's Wide Horizon fundraising program which is currently striving toward a \$12.5 million goal to support facilities, academic programs and endowment.

## Board of Trustees Elect Alumna

Penelope Kaniclides '59

At its February meeting in New York City, the Skidmore Board of Trustees elected Penelope Kaniclides to membership, it was recently announced by Katherine S. Rozendaal, board chairman.

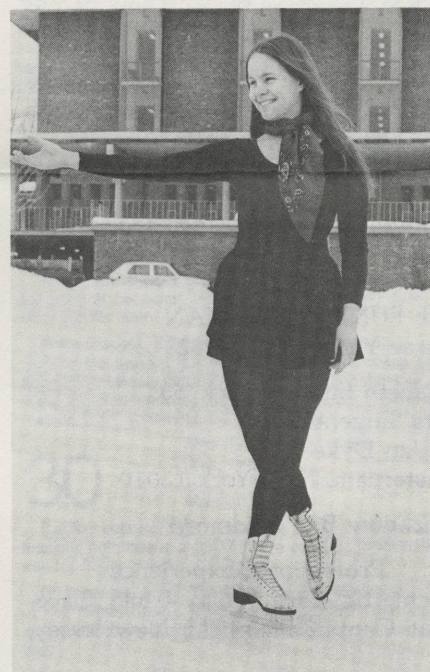

Now serving as co-chairman of the leadership fund in Skidmore's Wide Horizon Program, "Penny" Kaniclides is one of Skidmore's distinguished graduates and a recipient of the college's Outstanding Alumni Award.

A mathematics major, Ms. Kaniclides pioneered in the development of new processes for collecting and using information. After graduate study at the Courant Institute of Mathematical Sciences, she began her career as a computer programming supervisor for the Foster-Wheeler Corporation, and was later a computer application analyst at Control Data Corporation.

In 1965 she joined Standard and Poor, becoming the first woman vice president in its 110 year history. There she founded that firm's computerized financial services division and in three years built it into a multi-million dollar business.

In 1969 she founded her own company, Telstat Systems, Inc. which won national recognition as a major "external data bank" providing computerized information on more than 15,000 securities to banks, brokerage firms and insurance companies.

On the Skidmore Board she will serve on the Business Management and the Development Committees.

## Gift from a Good Neighbor

Guy Plamondon, Consul of Canada for Cultural Affairs, visiting lecturer for "Know Thy Neighbors," with Prof. Madeleine Ortoleva

A gift of 25 volumes, including novels, plays, biographies, poetry and essays was recently given to the Skidmore College library by the Canadian Consulate General in New York City. The gift, the second from the Consulate, acknowledges the course "Know Thy Neighbors, The French Canadians" taught by associate professor of modern languages and literatures, Madeleine Ortoleva.

Dr. Ortoleva first offered the course which features guest speakers from Canada and a four-day trip to Montreal in January 1977. She has done extensive work on French-Canadian culture, spending the summer of 1978 at Laval University in Quebec City on a grant.

She is delighted with the Canadian support of Skidmore's course, pointing out that we have now received 175 books from the Consulate. "The Canadians like to see programs such as ours continue," she commented "and are willing to help out any programs regarding the American conception and understanding of Canadian culture."

# Alumni Association Presents Slate of Candidates

The Nominating Committee is pleased to present the following slate of candidates for election to the Board of Directors of the Skidmore College Alumni Association. Election will be held at the Association's annual meeting during Reunion, June 1-3. Additional candidates may be nominated upon petition signed by not less than twenty-five members of the Association and sent to the nominating committee no later than May 1, 1979. Petitions should be mailed to the Alumni Office at Skidmore College in care of Barbara Dooley Fitzgerald '54, nominating chairman.

## Class Notes

Editor Patricia Totten

**Because of the volume of class notes received since last fall, we have been unable to publish all classnotes in any one issue of SCOPE. We have divided the notes into several issues and, in addition, have mailed notes out with class newsletters.**

Some of the cards are paying off. Surprise me with more.

**Mary McDonald**, 6 Depot St., Ludlow, VT, sent only her card and address.

**Eloise Hall Hammel** sent a card from the Taj Mahal. "Fine trip. . . Jerusalem heavily armed. . . Iran under Marshal Law. . . closed to tourists just after we left." Eloise went on to Jaipur, then to Nepal and Afghanistan before returning home. The group she travelled with included 24 women, 4 men, a Mercedes bus, and a good guide.

A letter from **Marian Stiteler** says she has succumbed to apartment living and likes it. She was to spend Christmas with daughter Jessica in Anacortes, WA. Back for Council in September, Marian enjoyed seeing Skidmore and meeting old friends, faculty and students.

Miriam Pitts Pitt  
(Mrs. Harry N.)

Loudonville, NY 12211

Special from Joyce: "September 15, 1928, married on board the Santa Maria off the coast of Chile. **Joyce Ellen Mather** to Philip P. Glassey." September '78 was a Golden celebration. A kindly neighbor gave them a party on Mercer Island just before they flew east for a family reunion at their daughter's new home in the woods near Bedford, NY. Everyone was present for a joyous time, and Skidmore was represented by **Margaret DeLaney Fluty**. In a rented car the Glasseys traveled to visit friends in upstate NY (including Pittsie), to Connecticut for a scheduled game of golf with other old friends, and to Washington, D.C. to visit eldest son Roger and family. Worthy of note is that Roger, on a sabbatical from Berkeley, accepted an offer to head up the statistical division of the Dept. of Energy for 2 years.

In November, **Louise Castle Herrick** celebrated her recovery from a broken kneecap by taking a yacht trip down the Nile from Abu Sinbel to Cairo.

**Peg Armstrong Dakin** keeps busy with volunteer work, sick calls, socializing, and cogitating about a retirement home in North Carolina with other old friends. She had an enjoyable two weeks vacation with her son and family in Canada last summer.

**Lib Williams Gilloon** and Frank were struggling with pipe to mend for irrigation when last she wrote, "hating to put in a new system without adequate help."

**Helen Streng Reid's** son Jasper ("Jap Jr.") lives with her—a happy arrangement for a widow. He enjoys being host and escort, as well as son.

**Florence Tabor**, our "Flossie," gave much of her lovely antique furniture to nieces when she moved into her new, smaller apartment. No longer on the Board of Directors or Executive Committee of the American Cancer Society, she still finds time to serve as a volunteer. In early April Flossie spent several days with friends in Clearwater, FL. Her new address: General Delivery, Millbrook, NY 12545.

**Dot Devitt Rogers** is president of her church circle, has a job in her P.E.O. Chapter, and volunteers at Paige Hall—a home for out-of-town girls. Son Jim is a judge and has served on the bench for 15 years. Dot enjoyed a trip to Europe with Jim and his family in 1976. This fall she expected to drive to High Hampton Inn in the Blue Ridge Mountains of North Carolina (an annual trip) for a 3-week stay.

**Ethel Terhune Wilmot** is serving for the 8th year as president of the Waterford Historical Society. She enjoyed 3 weeks in Florida in April, coming home to her Garden Club Show where she won 9 Blue Ribbons. Then came the annual "Sheep to Shawl" program which has received national recognition. Over 400 4th graders plus retarded groups are bussed in to see the process from shearing to the finished cloth. Terry and her workers serve lunch,

and each child leaves with a gingerbread lamb cookie. The many things Terry accomplishes I cannot begin to tell you, and she still finds time to play bridge occasionally.

**Mildred McClurg** Magavern and her children and their families planned to spend the Christmas holidays at Stowe, VT.

You will have learned from me by now how thrilled I was to see that highest "participation" figure in the Annual Giving—81%! We can't contribute impressive sums, but our loyalty to Lucy Scribner's dream is visible.

25

**Virginia L. Brandt**  
1113 North Sherman St.  
York, PA 17402

**Helen "Billie" VanVorst** LaRoque keeps busy in her greenhouse at home. Her daughter Millicent, who is Director of Production for the Book Division of **Times Mirror Magazine**, visits her often and spends summers with Billie in her cabin in the Adirondacks. Billie makes occasional trips to Pennsylvania to visit daughter Margot, whose husband buys and restores historic houses as a hobby. Billie is well and does all the things she always did—but more slowly. Don't we all?

**Dot Hensel** Axford saw **Eleanor McHenry** Ireland last summer at Long Beach Island, NJ, where they had dinner and a fine talk. She also saw "**Bid" Harvie** Devine at Heritage Village while visiting there. Dot's granddaughter, who is married to a Doctor, has decided to finish at Marywood College, in Scranton, PA, instead of returning to Skidmore.

**Dorcas Patterson** Rindfleisch spent a day at Massachusetts General Hospital for tests for her thyroid condition, but feels well and belongs to two Bridge clubs as well as Woman's Club and DAR.

**Grayce Pelton** Harrison had a nice visit with Eleanor Ireland last summer. The mountains were much too cold for Grayce this past year. She and Schuyler were to leave for Sarasota, FL on November 1st.

**Dorothy Koerner** Marshall had a very happy summer in Maine this past year, and expected to be able to leave on her trip around the world on January 19th aboard the "Royal Viking Sky." She realizes it is probably a "crazy jaunt" but promises to act like the great grandmother she is, upon her return in April. More power to you, Dot!

**Claire Sandquist** Pearson and husband celebrated their 50th wedding anniversary on September 8th. Our congratulations to both. Their son and daughter and seven grandchildren helped make it a most joyful occasion.

**Eleanor Wilmot** Baker had a very busy summer with lots of company. They were expecting to leave for Cape Canaveral, FL in January.

**Eleanor Harbeck** Gaylord wrote that her husband has been retired for more than 11 years and they have done some travelling. Eleanor belongs to the Rochester Art Club.

**Lou Fisher** McAfee and husband are not completely retired from business in Speculator, NY, where they continue to sell boats, motors and marine equipment. Lou has made a remarkable recovery from two strokes suffered in 1976 and is quite active in the Legion Auxiliary, Arts and Crafts, and Republicanism. The McAfees see Grayce and Schuyler Harrison when they come to Piseco in the summer.

If anyone in the class knows the address for **Louise Sterz** Gardner, please send it to Eleanor Ireland or your Secretary. A card sent to Forest Hills, NY, was returned "unclaimed."

**Edythe Woodruff** Peterson is taking a "sabbatical" from her Class Agent duties. She and Pete have moved into a new home, which keeps her busy, and Edythe visits her 100-year-old mother each week. We all appreciate what Edythe has done for the Class and for Skidmore, and she is to be congratulated for contacting 23 members of our Class asking for support of Alumni Giving.

**Eleanor Ireland** reports that all other Class Agents will continue this year.

According to the Report of 1977-78 Alumni Giving, 40 out of our 65 class members contributed. Only four classes have a higher percentage of giving.

Our deepest sympathy to **Margaret Chase** Tyler on the death of her husband in April 1978 after a long illness. She is busy now doing things she had to neglect so long and also finds time for visiting friends and playing golf and bridge.

**Helen Kulp** Wicart appreciated the sympathy notes sent to her after the death of her husband, Carlton.

Hope all of you had a joyous Christmas and that 1979 will be a good year for all of us.

DIED: **Amity R. Perkins**, on July 23, 1978, after a long illness. The Class extends deepest sympathy to her sisters, Mrs. Chester Whittemore, 17 Bartlett Crescent, Brookline, MA, and Mrs. Virginia Perkins Clapp, 104F The Villages, Freehold, NJ 07728.

**Frances Brayton** Boucher reports that their son and daughter hosted an elegant party in celebration of their 50th wedding anniversary in August. Among the guests were **Louise Lochridge** Watkins and **Gen Anderson** Morgan.

**Helen Hand** Knapp has a 10-month-old grandson and two granddaughters, ages 7 and 8. In August she and her husband travelled to the British Isles and the Greek Isles.

**Emily Hohl** McCabe is doing very well in her own apartment and hopes that any of the "girls who get out this way (Santa Clara, CA) will stop and see me."

**Betty Honness** McKaughan came safely through a cataract operation in August.

**Elizabeth Latimer** Jackson travelled to Belgium where daughter Ann is on special assignment with the Monsanto Company. In September they travelled in Norway.

**Viola Moore** Stowell reports the death of her husband, the Reverend Eugene L. Stowell, on July 21. The Memorial Service was held on their 48th wedding anniversary. Viola was re-elected president of Literacy Volunteers of NY in September.

**Marie Muller** spent last summer in Bellevue, WA with her sister-in-law and nephew, and in Mission Viejo, CA with nieces. In the fall she had an exciting trip to the best of Asia.

**Alice Peterson** has added another job to her busy schedule—corresponding secretary for the Citizen's Advisory Committee. She had a nice trip to Boston in late October with the Saratoga County Retired Teachers Assn. and surprised herself with the distances she was able to walk while sightseeing.

**Hazel Richards** is still practicing medicine, but takes 3 months off during the winter to go to Florida. In the summer she finds time to golf, garden and swim. Sounds delightful.

**Marjorie Baker** received the Syracuse district's "Volunteer of the Year" award in July for her service as Chairman of SCORE. In September she had a fabulous trip to Spain, staying in Estapona until October 14. Our sympathy to Marj on the loss of her sister Dorothy.

**Marion Seaman** Johnson spent six weeks during June & July touring Holland, Germany, and the British Isles, and will spend part of winter at her desert home in Barrego Springs.

Still studying with Stowe artist Stan Marc Wright is **Marjorie Smith** Davis who sold 10 paintings this year. The Davises ride horseback almost daily.

**Miriam Wilbor** Rust was in the hospital in April for a ruptured gall bladder, but recovered enough to go to New Hampshire to celebrate their 50th wedding anniversary on August 11th. Their son Richard opened a restaurant in Roswell, GA, called "Lick Skillet." If you go to Atlanta, look it up! Miriam reports that **Louise Read** Simpson and Harold celebrated their 50th in July.

DIED: **Jacqueline Green Ordín**, on May 26, 1978. She is survived by her husband, Harry Ordín, of 42 Chestnut St., Liberty, NY; by daughters Nathalie and Gretchen, and by 4 grandchildren.

**Esther Harby Cook**

**Dorothy Jamieson** Chamberlin spent two great months last winter touring India, Sri Lanka, and Nepal. She and her sister travelled alone for a month, then spent a month with Dr. and Mrs. Park Johnson, visiting Villon Christian Medical College, the Taj Mahal and fabulous palaces, temples, etc.

**Edith Wills** Burbank feels fortunate that she moved to Pine Run Community in 1976. She has learned to slow down following two abdominal surgeries last year and enjoyed a happy week at Lake Mohonk Mountain House in September.

**Josephine Murray** Fraser reports the wedding in August of her first grandchild, daughter of **Betty Fraser** Budrow '53. Her entire family, 15 in all, including grandchildren ranging in age from 4 to 22, surprised her at a birthday dinner in September.

**Rosabelle Coloney** Clay had lunch with **Mary Hastings** Marsden and **Dot Jamieson** Chamberlin recently. Rosabelle has had surgery on her feet, and at last report was also recovering from a broken rib.

**Helen Palk** Booth enjoyed a visit from her daughter and 3 granddaughters whose home is in Germany. Helen and her husband get to Germany every year or two.

**Mildred Bailey** Lundberg has recovered from surgery for an aneurysm in the aorta and was looking forward to a visit with her son and family in Montgomery, AL at Thanksgiving, and with her daughter and family in Cold Spring on the Hudson for Christmas.

Donald and I are enjoying a very warm winter in our new winter home in Clearwater. Our second great grandson was born in May.

DIED: **Elizabeth Booth** Salzman, in August 1978. Survivors are her two sons, David of 31 Church Road, Bedford, NH, and John.

28

**Mary Roberts Teare**  
(Mrs. William H.)  
45 Goode Street  
Burnt Hills, NY 12027

**Vi Auer** did some sketching on her recent trip to Ireland. She is continuing her watercolor painting and volunteers at American Red Cross, Senior Citizens, and at a convalescent home.

**Kay Butler** McKenna is progressing well after a series of mini-strokes and a carotid artery operation.

**Verna Dewey** Allfrey and Ken, "after a perfect summer, socially and weatherwise, at Caroga Lake," were trying to squeeze into their double mobile home at North Ft. Myers, more of the treasures they couldn't bear to part with, including the 1928 **Eromdiks**. Verna has joined a bell-ringing group and Ken is busy with his Ham radio, at which he is no amateur!

**Grace Fields** Marshall writes from Pasadena that they are in the usual throes of retirement and not living by the alarm clock anymore. Grace had to give up teaching due to a spinal fusion. She loved teaching and her different but challenging job at Cal Tech.

**Linda Galston** Bensinger, a member of the new Womens Board of Northwestern University, is also active with Chicago Lyric Opera, the Chicago Symphony, the Field Museum and the Art Institute. Sympathy is extended to Linda whose husband Edward died in January of this year.

Our sympathy, also, to **Elinor Griffen** McFarlane whose younger son, Tom, died this past fall. Elinor was ill in August and later fell and broke some ribs, but is recovering now.

**Irene Hammond** Crowley sent her love to us at reunion time. She felt that her rheumatoid arthritis would keep her from fully enjoying the occasion. Irene lives in Altoona, PA, near her daughter, after retiring in 1976 from the weekly newspaper she had been running alone since her husband's death. She is also doing volunteer tutoring in language and reading.

**Mary Holden** Poyntz and Pearce have moved into a larger apartment where Mary has more room for her art projects. Both are keeping fit with mature exercises at the Y and Mary is chairman of Literature Discussions in an American English Action Program. They had a delightful trip to Dublin, Cardiff, London and West Germany, and saw **Peg** and Al Mathias in San Francisco.

**Mac Hunt** Evans and Alton had the best trip ever to Florida in October aboard their boat. They later visited two of their daughters in New England.

On a recent trip to Florida, **Mae Huntley** Eagleson visited with **Clara Healey** Hager '30 and is now ready to settle down to volunteer work with hospital, church, etc.

**Vivian Jensen** Behrman and George live in a charming community at Lake Wales, FL, and spend summers on Long Island Sound. Their daughter, Louise, a marine biologist, has "one of the most unusual jobs on the Federal payroll," according to an AP dispatch. She is an official observer aboard foreign ships fishing outside the 200-mile limit. Sometimes the only woman on board, Louise is viewed as a special and slightly awesome guest, and life on board is "as first class as a fishing trawler can provide—often not very." "But, Japanese, Spanish, etc.—are interesting."

**Audrey Jones** Jones planned to attend Reunion but found herself in a Miami hospital with phlebitis instead. She has made a good recovery and can even square dance again. The Joneses spent last summer in Springfield, but returned to Miami in September.

**Peg Slade** Bellows and Ted missed the Reunion because they spent several weeks with their daughter in Oregon, enroute home from Chula Vista, CA, where they spent the winter.

**Mary Thompson** has joined a superb Aquanastics (exercise in the pool) class. She spent a joyous week in St. Louis with an old friend, a few days in northern Wisconsin enjoying the fall colors, and more recently spent a week in Michigan.

**Charlotte Kelsea** Whipple says that next to her new great grandchild, her trip to Russia in January was the greatest thrill. Charlotte keeps those north country roads warm, tripping to Montreal, Saratoga, Lake Placid and Plattsburgh for concerts, dance recitals, baseball games, chorus rehearsals and volunteer work. In her spare (?) time she helps in daughter Mary Margaret's gift shop in Saranac Lake. Sometimes she even gets to Burnt Hills!

**Helen Little** Elberfeld does church and DAR work, china painting, and travels to Albuquerque and Fort Collins, CO, to visit her daughters. Her newest grandchild is a year old.

Special appeal to those who did not participate in our wonderful Fiftieth Anniversary: Come and see the new and old Skidmore when you can. Give your dollar-and-up to Annual Giving, raise our percentage to 100%, and get those Skidmore bags! Next year's goal is \$360,000 and Skidmore needs it, but more than that she needs us!

DIED: **Anne Mullane** Furneaux, on November 30, 1978. Survivors include her sister, Margaret Mullane Reardon '21, of 180 Exchange Street, Lawrence, MA 01841, and her two sons, John E. and James H. Furneaux, and three grandsons.

**Esther Olson Lofquist**  
(Mrs. Spencer)  
96 New England Avenue, Apt. 5  
Summit, NJ 07901

**Gertrude Schanck** Wolcott is constantly on the go—two months in Florida; the Hawaiian Islands; Tides Inn, Irvington, VA; and Williamsburg which she visited with **Helen Abbott** Fowler '31. In June Gertrude visited Abbott Lake on Blue Ridge Parkway, named in memory of Stanley Abbott who was its landscape architect.

**Mary Raub** keeps busy with community and church projects and is also Chairman of the Bridge Committee Century Club.

**Dorothy Bauer** Robohm and husband completed their new home in 1976. They have travelled to the South Pacific, to Scandinavia, and have seen much of the U.S.A. since their retirement. All four children are married and there are 11 grandchildren.

**Ruth Hesse** Cranston, back from a trip to New York, England, Wales and Canada, saw her sister in Canterbury, her nephew and family in Wales, and friends in New York and Canada. Still a member of Pikes Peak Branch of Pen Women, Ruth works three days a week as a volunteer on Meals for the Elderly.

**Louise Bogart** had a lovely summer with two family reunions, a month in Yugoslavia, and a visit with **Ruth Godfrey** Tucker in Tryon, NC. Happy to say both are planning to be at our 50th Reunion.

**Alberta Lowell** sold her home and now has an apartment in a development on the eastern outskirts of Gardner, MA, at 75 Ridgewood Lane.

**Bernice Kroehle** van Luttwitz, after her husband's death in 1977, found herself manager-buyer of wines, gifts, and kitchen things for their particular store of their Shaker Square Beverages Inc. chain. The many trips to Europe with Jurgen she feels gave her a wonderful background for all that is required of her now as President of the Corporation.

**Ginny Kipp** Harrington's husband Brad is recovering from a serious heart attack. We just hope and pray all will be well soon.

**Winnie Whitehouse** Bender has issued an invitation to a cocktail party at her home for our Class, on Friday, June 1, 1979. More details later.

**Helen Hiscock**, **Collie**, **Flivver**, and **Kay Marshall** Sambrook are working like beavers this year to make ours a "Wing Ding" 50th Reunion. It takes enthusiasm on our part to make it so. We must make an extra effort to be there, and must give to our 50th reunion fund, so it WILL be our greatest.

**Alice Hageman Ballantine**  
(Mrs. James S.)  
121 North Shore Road  
Absecon, NJ 08201

**Pauline Lutz** Hopkins is now out of the cast and brace after breaking both legs in a serious auto accident in May 1976. Keep well for Reunion 1980, Lutzie!

**No Laughing Matter: The Autobiography of a WASP** is the name of **Peg Halsey** Stern's latest book. Peg writes that she tries to visit friends in the States once a year. See you at Reunion in 1980, Peg?

Surprise from **Eleanor Brown!** On May 20, 1978, she and William J. Ellenberger were married and spent 44 days in England, Scotland and Wales on their honeymoon. Bill's World War II friends living in Great Britain made the trip personal. Bring Bill with you to Reunion, Eleanor!

After being secretary for Bachrach, Inc. for 17 years and for U.S. Lines for 18 years, **Amy Mendel** Barnard is now living in Florida and, interspersed with an annual cruise and an occasional trip by car, she keeps house, swims and works for the City of Hope.

How about chartering a plane to bring all Florida Class members to Reunion?

**Carolyn Herzog** Hopkins and John moved to Florida in September—Turban Court 4804, Shell Point Village, Fort Myers. Have you ever missed a reunion, Carolyn?

No trips for **Marion Johnston** Steffey and Fred this year. He had a gall bladder operation in March and a kidney removal in September. Marion golfs and is still a volunteer at the hospital as well as projects chairman there for raising money.

**Helen Gale** Duncan and Bob spend winters in warm areas—St. Croix, Alabama, Louisiana and Texas—and then go to Florida for a visit with **Ruth Gallagher** Tonne and to Georgia to see daughter Meg and family. Ruth's son and his family live in Green Bay, Wisconsin.

**Gertrude Latham** Bump and Kilbourne are in good health, taking trips at the drop of a hat and house-sitting for Bermuda friends visiting the States. Both sons live nearby. Jim builds early stringed instruments in his cellar and garage and Ben bought the house where the Bumps once lived.

**Louise Gibb** Griffith spent a week in Denver, then went on to Salt Lake City, Bryce Cannon, Grand Canyon (north rim), Las Vegas and Lake Mead. Her plans for this winter included 6 weeks in Florida.

Retirement for **Eleanor McAndrews** Retallick began on December 30th. She was an Assistant Supervisor at Rhode Island Med Center in Cranston.

**Bertha Freiberg** Schweich and Joseph had a wonderful trip to China, their third trip to the Orient.

**Ruth Jones** Fisher is in Key Largo, FL, and **Julia Porter** Peek has moved to a condominium in Wilmington, Delaware.

**Virginia Vigneron** regrets that she was unable to attend Council in September. She was recuperating from a slight operation and had already accepted an invitation to roam in Virginia, the Great Smokies, reviving old friendships and enjoying the spectacular foliage. Ginny hopes we are all remembering and planning for our 50th in 1980. She suggests that we send our contributions, now, to the Reunion, Fund.

**Louise Moulton** Smith spends most of her time in Vermont. She has 10 grandchildren.

**Fannie Newman** Goldsmith and her husband occupy one of the most beautifully landscaped estates in New Jersey, now open to the public and only 7 miles from Flemington. Watercress Farm was purchased in 1936 and is a 200-year-old Dutch Colonial house set in the midst of thirty acres. Since the year it was purchased the Goldsmiths have added to its gardens and landscaping until it now has twelve gardens and three greenhouses. Fannie writes, "Our place might interest Skidmore grads who are welcome as our guests upon making an appointment. (305/391-4118). We winter at Delray and would love to hear from classmates.

The Class mourns the loss of two more of its members.

DIED: **Marjorie Henner** Littlefield, on September 5, 1978. An art teacher for 43 years, her career took her to several communities. For the last 16 years of her career, she headed the art department in the Penfield School District, retiring in 1976. At the time of her death, she was designing pages and writing a text describing the history of the stained glass windows in St. Paul's Episcopal Church in Rochester, NY. Besides her husband, Jess, of 2410 East Avenue, Apt. 2C, Rochester, NY 14610, Marjorie is survived by two daughters, Mary James of Rochester; Barbara Kingston of Charlotte, NC; her mother, Mrs. Ethel Henner of Canandaigua; two brothers, John and Ernest; two granddaughters and several nieces and nephews.

DIED: **Hazel M. Shiring**, on November 30, 1978. Hazel was a retired librarian who, from 1928 to 1945, served as General Assistant and Cataloger in the Skidmore College Library. Her sister, Norma Shiring, of 305 Weymouth Road, Southern Pines, NC, survives.

Our thanks to **Kay Robinson** Lane for a great job as Class Secretary these past years. Kay and husband, now retired, spent the past fall travelling from Wisconsin to New England, and visiting with family and friends locally.

"Brandy" Mason, "Skeet" Poler, "Dot" Stuart, "Kit" Haines and yours truly had a fun reunion at Council in September. We learned of the many wonderful advantages Skidmore has to offer and enjoyed the social get-togethers with other class and club representatives. We upheld the class tradition of a visit to the race track and, also, of being the noisiest! Ask **Dottie Handrick** Stuart.

"BG" Gordon Green and husband, between travels to East Africa, Asia and other faraway places, would love to see some skiing '32ers in Stowe. She and "**Dottie**" Ferguson Sibley keep in touch by phone occasionally.

**Lynne Gillis** Ryan '33 is enjoying her retirement while husband Granville is still advertising director of DAC News.

**Monica Fenwick** Belcher is now President of Binghamton Skidmore Club. Our congratulations! She also keeps busy adding to her large and lovely collection of dolls and giving music lessons to two of her grandchildren who have inherited her musical ability.

**Lucy Tombs**, now retired, recently returned from a trip to Texas, California and Hawaii. While in California she visited with **Gretchen Haigh** Larrabure who, we are sorry to hear, has been quite ill. How about sending her a card at 350 Sharon Park Drive, #J5, Menlo Park, CA 94025.

**Ruth Garlick** Nelson visited with **Sylvia Mather** Flower and Scott, **Bobbie Mahady** Burt and Charles, and **Betty Pelton** Craig and Edgar this summer. She also had lunch with **Ella Van Dyke** Tuthill in August.

**Dorothy Blair** Shimer's husband wrote that Dot was in Indianapolis for a meeting of the Executive Council and Committees of the United Church of Christ. Besides her responsibilities in AAUW and Int'l. Federation of University Women, she has authored a book, numerous articles, and reviews in American and Asian journals.

"Tommie" Thomson Clarke has become a complete Floridian and moved to a condominium on the ocean in Satellite Beach.

**Sally Winslow** Bissell and husband journeyed to Newark, NJ for the "swearing in" of son Jack as Judge of Essex Co. District Court.

**Angie Lawrence** Kerly left in October for a cruise to South America and **Sylvia Mather** Flower and Scott took a fall cruise to Alaska through the Inland Passage.

**Marion Shipp** Van Nest had visits last summer at their place on Cape Cod Bay, with **Reinhard** Illingworth and Frank and **Barbara Wells** Wigmore and John. She keeps in touch with **Phyl Bourne** Forbes via telephone.

**Kit Buek** Haines was off again on her annual trip west, but before leaving lunched with **Skeet Saylor** Poler, **Ellen Gunther** Johnson and "Tap" Larsen Weed.

**Edna Hultberg** Monk and husband are enjoying apartment living after 42 years in a house.

Our heartfelt sympathy is extended to **Ellen Gunther** Johnson on the death of her husband Charles, in October.

We also extend our sincere sympathy to **Carol White** Yates who lost her husband "Doc" in August.

**Marion McCutcheon** Rauschenbach became President of the Paterson Municipal Council in November. She is the first woman to have this position.

**Marjorie Yetter Walls**

Our President, **Prindle Hodges** Wissler, and **Dot Wallace** Campbell were the only members of our Class at Council in September, and report that it was an excellent, jam-packed program. The Class extends its deepest sympathy to **Ruth Hite** Sutherland whose husband Jack died suddenly on November 16, 1977. After 17 years, and with no intention to buy, the search for new "digs" was a nightmare to Connie due to the housing shortage in the Washington, D.C. area. She is now living at 3003 Van Ness St., Apt. 101 West.

I did pitch my cane after Christmas last year! Now I'm aimin' to pitch 15 pounds by next Christmas with the help of Diet Workshop and then a couple of hundred in time for our 50th.

Our Class Project is going very poorly, and it's because only half the Class are into it. Some have done nothing. The 25th Reunion Class last June gave \$15,591. The 50th Reunion Class gave \$25, 106. It makes me ashamed that we are doing so poorly.

What can I say to those who wanted to begin this project at our 40th and who now turn their backs? Send your checks to Ruth Suttie Whiting, 7 Taylor Avenue, Waterloo, NY 13165, made payable to "Class of 1936 Skidmore College." I want so to live and see this work, and we are not getting the cooperation we should. Approximately seven have paid in full—one was Alice Borneman Eaton. Please, get up to date—we are nearly into our 4th year. BUILD NOW for our 50TH ANNIVERSARY GIFT to Skidmore. PLEASE!
